## CONCLUDES TO STAY IN BIG RACE

Rodgers Turns Deaf Ears to Mother's Entreaties.

WARD HAS REAL HOODOO

Contestant in Transcontinental Flight Held Up at Coming by Dense Fog. Fowler, Who Started From Western End of Course, Remains in California, but Expects to Make Another Start Tomorrow—Ovington Announces He Will Start.

New York, Sept. 20.—The mother of Carl P. Rodgers, terrified by the bad luck that has attended the three aviators who are trying for the Hearst \$50,000 prize for an airship flight from coast to coast, went to Middletown and tearfully pleaded with him to abandon the contest. The mother found her son superintending the rebuilding of his airship, which was wrecked by a collision with a tree.

"Give it up now, Cal," she pleaded. "You were providentially saved from death. I feel that you will be killed or seriously injured if you continue. Give up flying for my sake."

Rodgers was deeply affected by his mother's pleadings, but he chewed resolutely on the butt of his cigar and announced his intention of resuming his flight as soon as his machine is in shape. Mrs. Rodgers will remain in Middletown until he makes a new start.

Fog Detains Ward.

Larry Ward, who started from Governor's Island on Sept. 13, accompanied by a hoodoo he is unable to take off, was held in Corning by a heavy fog. He is the only aviator in the race who has a whole machine. Ward was compelled to remain in Corning because his engine failed him just when it appeared that his troubles were over.

Fowler, the first to start in the cross-continent flight, is still at California, where he met with an accident.

## KING ATTENDS CABINET MEET CRITICAL TIME

Spain Ready to Grapple With Revolutionary Outbreak.

CANALEJAS EXPLAINS STRIKE

Premier Blames Socialists and Republican Element of Extreme Left For Recent Disturbances Throughout Kingdom—Rioters Burn Town Hall at Alcira but Fail to Destroy Nunnery—General Strike Proves Fiasco at Barcelona.

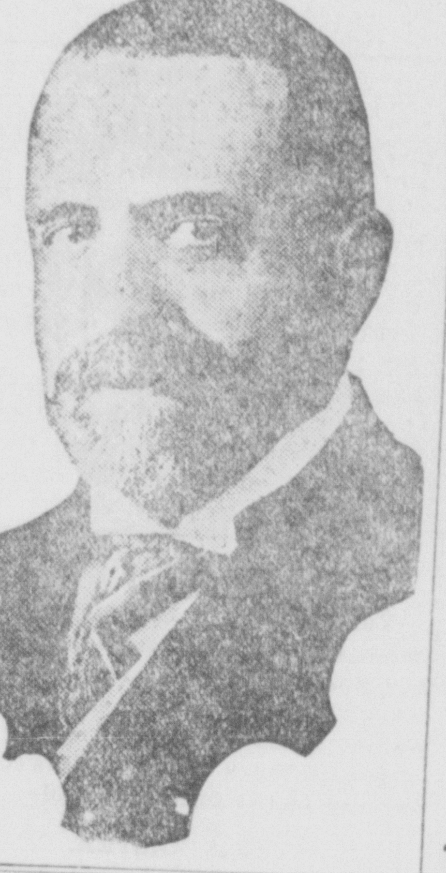

Madrid, Sept. 20.—Three persons have been killed in serious disorders at Saragossa, and the revolutionists at Valencia have cut the telephone wires and blocked the railroad lines. Much damage has been done at Leon and at Seville. At Seville the king presided at a meeting of the cabinet held to adopt measures for the repression of the riots. Severe measures were decided upon. At Barcelona everything is tranquil and the general strike has proved a fiasco.

The announcement by Prime Minister Canalejas that the constitutional guarantees were to be suspended was decided upon because of the revolutionary and anarchistic character of the strike, which Canalejas says is backed by Socialists and possibly also by the Republican element of the extreme Left. The strike follows orders of a mixed committee of Spaniards and foreigners, with headquarters at Barcelona and agents throughout the peninsula, whose orders are to foment a general strike and paralyze the national life. The premier says that the government will restore normal conditions at whatever price.

The situation is the worst in the province of Valencia. At Carcagente and Alcira the commune has been proclaimed. Alcira is in the power of the revolutionists. The town hall

## Miners Had Good Year

Statistics Show Ohio's Coal Production Greatly Increased.

Washington, Sept. 20.—Ohio's total production of coal in 1910 was 34,209,688 short tons, with a spot value of \$35,922,288, according to Edward W. Parker of the United States geological survey.

Although more than half of the coal miners of Ohio were on strike in 1910 for a period equivalent to 25 per cent of the average number of days worked, the increase in production in 1910 over 1909 was the largest gain ever made in one year.

The number of men employed in the coal mines of Ohio in 1910 was 45,641, who averaged 203 working days. Had it not been for the time lost by strikes, the mine workers in Ohio would have averaged about 230 working days.

The record for efficiency among the miners in Ohio is, however, high. In 1910 the average production by each man employed was 733 tons for the year and 3.61 tons for each working day.

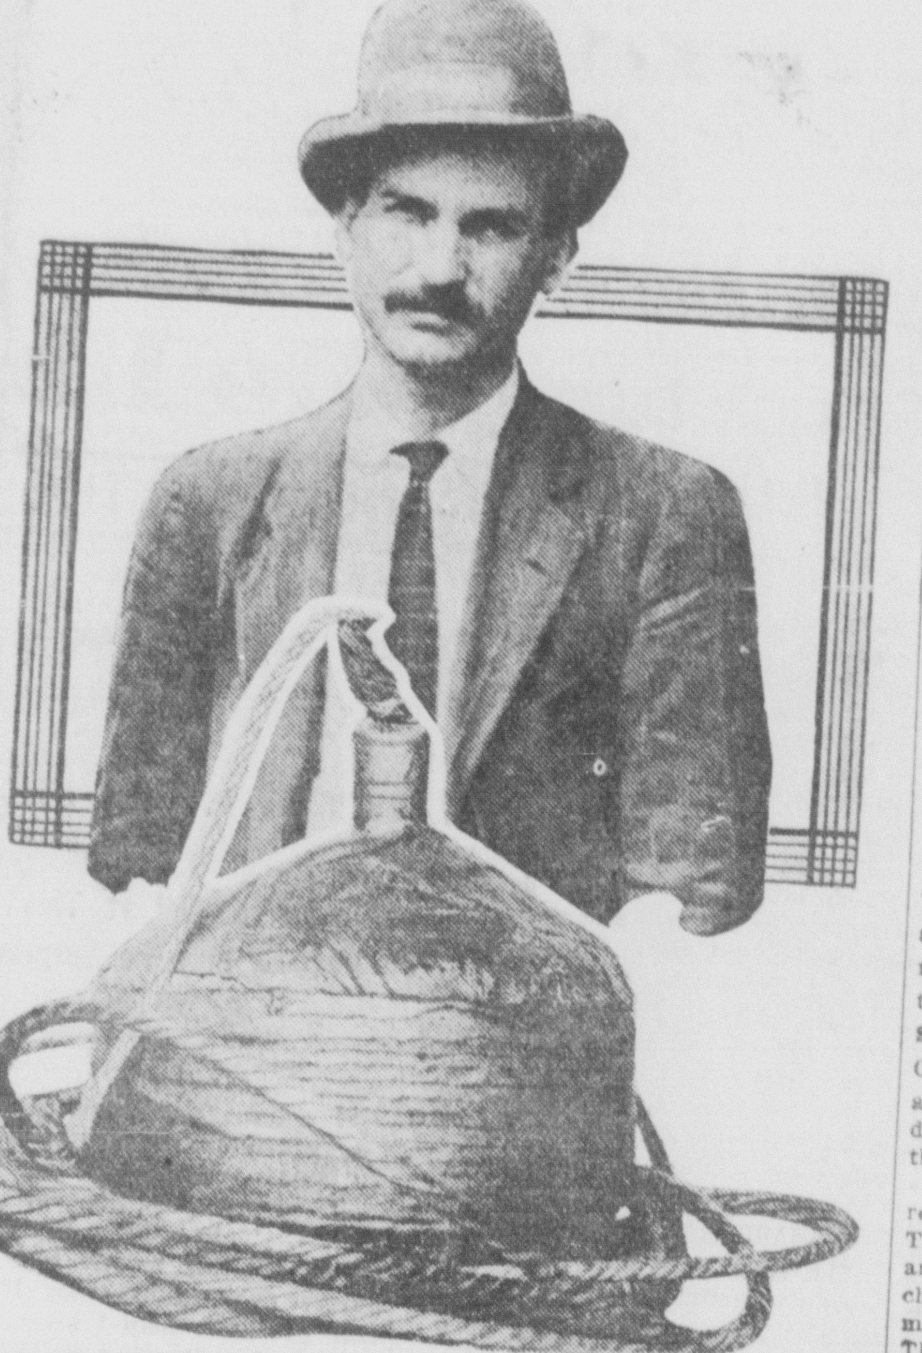

## Mother Disowns Her Son

Man Believed Dead Returns After Long Term in Prison.

Mich., Sept. 20.—George Alfred Kimmel, believed by relatives to have been dead for 13 years, arrived at his old home here from the penitentiary at Auburn, N. Y., and was identified by dozens of former friends and associates. Despite Kimmel's identification, however, and his acceptance by other relatives his mother, Mrs. Stella Kimmel, refuses to see him. The mother continued to denounce Kimmel as an impostor who was attempting to deprive her of \$25,000 insurance which she held on her son's life.

General Antenor Firmin, who led one of the expeditions against President Simon of Haiti, died at St. Thomas, Danish West Indies.

New York Police Believe They Have Chief of the Black Hand

Photos by American Press Association.

NEW YORK police are congratulating themselves and the public on the fact that they have Giuseppe Costabile in custody, held without bail for trial on the charge of carrying a concealed weapon. The weapon in this case was a bomb filled with enough explosive to shatter a building. Costabile's attorney made a strong fight for his client at the preliminary hearing, arguing that the bomb was not a "weapon" within the meaning of the law. Costabile declares that he is the victim of a conspiracy and that the police placed the bomb under his coat after his arrest. The real cause for the jubilation over Costabile's arrest, however, is found in the fact that the police say he is the head of the Black Hand organization that has been a terror to Italian residents of New York for years. Thousands of dollars have been extorted from them by threats and several score buildings have been blown up when the demands for money were refused. So great is the terror inspired by the Black Hand that victims refuse to testify against its members and agents and stories told to the police are "forgotten" when the witness stand is reached. Costabile, who is a mild looking chap, and the bomb he carried when he was arrested are shown in the picture.

## Flatly Refuses To Discard Extra Wives

Brazilians Kill Missionary Who Fought Polygamy.

New York, Sept. 20.—Dr. Henry E. Crampton of the American Museum of Natural History and Columbia university, who has been exploring the region about the headwaters of the Amazon, arrived on the steamship Coppenname from Georgetown. Professor Crampton gave what details are known by white men of the murder of Elder O. E. Davis, the missionary who was killed by natives in northern Brazil.

From what Dr. Crampton learned from Indians who accompanied his party on a trip to Mount Roraima, Elder Davis was killed at Kamaira-Wong, a mere collection of huts in Brazil, where he had stopped to preach the gospel to Chief Jeremiah and his followers among the Arecuna Indians. He told them that plural marriages were wrong and that they must stop and that all bucks who had more than one wife must discard all but the first.

The women were very angry and so were the bucks. Then someone shot the missionary with a poisoned arrow and as he lay on the ground someone cut his throat, and then whoever had done these things ran away. A while after other Indians, so the informers had heard, came along and found the white man lying on the ground some distance from the village. They got a hammock and dragged him to the village and took him into Jeremiah's hut, where he died. Then they buried him under the earthen floor of the chief's hut and the chief kept his clothing.

The Indians, who told what they had heard, were not sure whether a

## MAKES BIG HIT WITH HIS AUDITORS

Taft Promises to Boost Power Site For Soo.

PROJECT ONCE PROVED FAILURE

Citizens of Upper Peninsula Who Dropped Money in Attempt to Utilize Waters of St. Marys River For Power Purposes Grow Enthusiastic as President Tells Them He Will Present Matter to War Department—Would Mean Boom For City.

Sault Ste. Marie, Mich., Sept. 20.—"I accept this kindly demonstration as an indication of your approval of my friendship for and my support of the great president of the United States," were the words used by Governor Osburne of Michigan as he arose at the luncheon given to President Taft and thanked the people for their applause.

President Taft was given a warm reception by the citizens of the Soo. They first took him for a trip around the city and the school children welcomed him to town in a mass meeting on the lake front. Then Mr. Taft was taken to lunch with some hundred prominent citizens of the town. In his address at the luncheon, the first he delivered here, he confined himself to the purely local subject of waterpower. This is the greatest local issue in the Soo. They attempted a great waterworks here some years ago and most of the principal citizens of the town invested money in the project. It failed, and since then the Soo has been looking for waterpower development to make the city.

Mr. Taft told them that if they would send a committee down to Washington he would see that the war department would take the question up and attempt to reach a final settlement which would permit the use of the water of St. Marys river, which is now going to waste, but which, if utilized, would be sufficient to boost Sault Ste. Marie to a city of at least 100,000 population. No discussion of political issues could have brought Mr. Taft into the hearts of the people of the Soo as rapidly as this offer did. They applauded him at every mention of the subject and his reception grew noticeably warmer after he had entered into this question.

Mysterious Disappearance.  
Wapakoneta, O., Sept. 14.—Francis Winemiller, a young farmer living two miles east of here, disappeared from home several days ago and his whereabouts are unknown to his wife and children. Financial troubles and poor crops are said to be the cause.

Died in Ball Game.  
Zanesville, O., Sept. 19.—Peter Curran, 30, second baseman of the New Straitsville baseball club, was stricken with heart disease and died as he started to take his position in the field for a game with Shawnee at the former place.

## Wood Orders Change

Keep Cavalry Regiments on Mexican Border.  
Washington, Sept. 20.—Major General Leonard Wood left here for Pittsburg, where he will join Secretary of War Stimson. They will inspect army posts along the Mexican border and in the southwest. The trip is primarily to a change of policy in the assignment of troops in that section. It is General Wood's idea to assign cavalry organizations to posts along the Mexican border, and to station infantry regiments to the army posts in the northern states. Secretary Stimson and General Wood will visit the coast defenses of the Gulf and South Atlantic coasts.

Hogan May Insert Probe Into Penitentiary Deal.

Columbus, O., Sept. 20.—If present plans are carried out, Attorney General Hogan, on his return from French Lick Springs, will institute a probe into the purchase of supplies at the Ohio penitentiary and possibly other state institutions, as a result of the revelations before the new state board of administration, which were followed by the dismissal of stewards at the prison and at the Columbus state hospital.

President Thurman of the board said it would be too busy with its plans for reorganizing state institutions to delve into possible corruption, but said that if prosecuting attorneys would get busy their time would not be wasted.

According to Mr. Thurman, it has been discovered that although 1,250 pounds of fish were billed each week to the penitentiary, only 1,000 pounds were delivered. He also said there was no system of weighing; in fact, the barrels were not even counted. The board had ascertained, however, through a wholesaler from whom the contractor bought his supplies of fish, that only five barrels, or 1,000 pounds were delivered.

# DRYS ARE GETTING READY FOR A VERY HOT CONTEST OVER IN CIRCLEVILLE

An enthusiastic local option meeting was held in Circleville Saturday with 75 prominent dry workers in attendance. The purpose of the meeting was to effect an organization to espouse the dry cause in the coming wet and dry fight which is expected to open up within a few weeks, and rage hot and heavy until an election is held.

Rev. W. S. Fisher, of Williamsport, was chairman of the meeting, and Rev. J. B. Hawk, of Ashville, was secretary. Officers chosen were S. W. Dunlap, president; George G. Adkins, secretary and S. C. Grant, treasurer. Besides the above a score or more persons were made members of the executive committee, and empowered to appoint committees on agitation, finance, press, literature, etc.

The local option in Pickaway county has been seriously handicapped by the blind tigers which have infested Circleville until recently, and which have been the source of continual warfare between the two factions.

## Body of Davis Still in Creek

The body of William Davis, who was drowned while attempting to ford Darby creek above Darbyville, Sunday morning, has not yet been recovered, although a large number of persons have been assisting in the work.

Young Davis had gone after paw-paws which grow along the creek, and was in company with other youngsters. In attempting to cross the stream he fell in and was drowned.

## HEAD IN BUCKET OF SWILL

# CHILD STILL LIVES

## FOR FIFTEEN LONG MINUTES

### Remarkable Case of Resuscitation.

"Think of a 14-months-old baby being head down for fifteen minutes in a big bucket of swill, taken out dead and being brought to life again," says the Chillicothe Advertiser.

"Sounds like a miracle don't it? Yet it happened right here in Ross county, out in Twin township, on Saturday afternoon. The accident occurred on the P. White Brown farm at the home of Ron Kepplinger, a tenant. Mr. Kepplinger had started to town and Mrs. Kepplinger was busy, while the fourteen-months-old boy toddled around as all children will do at the period when they have just learned to walk. In his perambulations the youngster approached a large bucket of swill, which was full to the top and in some unaccountable manner turned over into it and stuck there with his feet in the air, for a period estimated to have been about fifteen minutes. Then the mother missed him, and looking around saw the infantile leg sticking out of the swill bucket.

She rushed to the child and pulled it out of the swill but its breath was gone. A hurry up message was sent to Dr. Haas at Bourneville, and another message intercepted Mr. Kepplinger, who was on his way to this city. Both responded instantly, the doctor arriving on the scene in incredibly short order.

Artificial respiration was resorted to, and after a great deal of hard work, the pains of the physician were rewarded by a return of breathing, and shortly thereafter the youngster broke forth in a heavy coughing spell."

## New Holland Man Hurt in Runaway

A horse driven by a young man named Schriener, of New Holland, became frightened and ran away with him near near Clarksburg, Monday, smashing the rig and badly injuring the young man.

He was assisted to Dr. Jones' office in Clarksburg, where his wounds, consisting of bad bruises, scratches and cuts, were dressed and he was sent on to his home in New Holland, feeling lucky to escape with the injuries sustained.

## Seriously Burned In Gas Explosion

Two men were seriously burned and a portion of the artificial gas plant wrecked at Hillsboro, Saturday evening, when a lighted lantern caused an explosion of gas in one of the rooms where a leak was being sought.

With a roar like thunder the gas exploded, tearing the roof off the building, and burning John Vaughn and Wm. Osborne, causing wounds which may result in the death of Osborne, as his face and hands were almost burned to a crisp, and the flesh dropped from his fingers.

Osborne has a family of ten children, three of whom are down with typhoid fever.

The gas plant was put out of commission for some time, and the big condenser was emptied of gas.

## CANDIDATES AND FRIENDS SHOULD

# Do Hard Work

## DURING THE NEXT TEN DAYS

### Many Contestants Are Running Close

### OUTCOME OF THE STRUGGLE

### Hard to Foretell at This Time.

### Results May Be Surprising at the Finish.

"I am surprised that my friends don't work for me harder than they do," said a girl whose name is well up in the list in the Register-Herald's contest. "I have been doing quite a bit of hustling myself and have a number of votes saved up. If I could only get more help I know I could make a fine showing at the close."

The reason for the seeming indifference on the part of the candidate's friends is that she is not making daily gains. She has made but little progress for some time and people are beginning to think she has given up the race. The contest is by no means ended. Neither the candidates who are now in the lead, nor those who are planning to better their positions in the race, can afford to be idle at this time. They should not only work hard to secure votes, but should show good gains each day so that their friends may see that they are in earnest.

Everyone likes to help a winner, while those who are behind in the race or are showing no improvement from day to day, are likely to be looked upon as dead ones.

Certain candidates are said to be holding back votes in considerable quantities, waiting for the finish before putting them in, but while it is often wise to have some ballots in reserve on the other hand there is much to be gained by making a perceptible change each day.

Any candidate in the contest can secure a safe lead this week by taking advantage of the special vote offer on new subscriptions, which closes Thursday, Sept. 21st, at 5:30 p. m., but it will require some hustling and systematic effort.

## Gypsies Get Money Worked An Old Graft

George Ridgeway, lineman for the Bell Telephone Company in Ross county, is out \$7, but received some valuable information for the amount. Ridgeway was at work when a party of disreputable gypsies came along and one of the women wanted to tell his fortune. He was willing.

The woman had him to produce his pocketbook, as the same gang has tried to "work" a number of citizens in this country, and, while repeating a lot of nonsense and pretending to "blow the money out" by blowing through a bunch of bills, she slipped \$7 from the roll and returning the pocketbook to Ridgeway, told him to keep the pocketbook in his pocket for one hour or the charm would be broken.

Ridgeway did as he was told, and when he examined his money he was "short" \$7. The last heard of the tribe they were headed toward Circleville.

\$200 Circassian Walnut Bedroom Suite.  
\$125 Diamond Ring.  
\$75 Diamond Ring.  
\$40 Haviland & Co. China Dinner Set.

### WHERE THE PRIZES WILL GO.

celves the second highest number of votes will receive the H. Link & Son Upright Piano with this restriction, that if the player piano is won in district No. 1, the upright piano must be awarded to the opposite district, or vice versa. In this way one of the grand prizes will be won in Washington and one outside of Washington. After the grand prizes have been awarded, the names of the winners will be stricken from the list and the 1st prize. The same plan will be used holders of the first places will then be given the prizes known as District in awarding the District 2d prizes.

Remember, three prizes will be given to each district, and each and every candidate will receive a square deal. One district will not have the advantage over another. District No. 1 will receive a grand prize and two district prizes. District No. 2 will also receive a grand prize and two district prizes.

Address all communications to the Contest Manager, Register-Herald, Washington C. H., Ohio. See the Contest Manager for instructions and all details of the contest.

### Legend of Magpie and Robin.

The peasants of France, in accordance with a tradition, pierce the head of a magpie with a thorn whenever they catch one. According to the French legend, after Jesus had been nailed to the cross two birds alighted on the extended arms of the instrument of death. One was a magpie with a beautiful aigrette on its head and a long waving tail, then the handsomest of birds but the wickedest, chirping insult at the suffering Jesus. The other bird was a modest little bird with gray plumage, which approached the cross timidly, uttering cries of grief. With its beak it tried to pluck away one of the thorns. A single drop of the blood fell on the pitying little gray bird and gave the robin redbreast.

## IN SOCIAL CIRCLES

One of the most enjoyable social events of the week was the lawn party at the home of Mrs. B. F. Smith, on Barker avenue Wednesday afternoon. The party was given as a surprise to Mrs. Smith by the Ladies' Relief Corps, complimentary to her sister, and nieces, Mrs. M. J. Clifton and Mrs. Bruce Pine of Washington Court House, Ohio, Mrs. Smith being one of the prominent members of that order and her sister, Mrs. Clifton, being also a member of that association. Refreshments of ice cream, cake and fruit were served, and the 45 guests were delighted with Mrs. Smith's charming hospitality.—The Daily Journal-World, Lawrence, Kansas.

Stew two dozen prunes until very tender, drain, remove the stones, and chop the prunes to a pulp. Whip the whites of six or seven eggs to a stiff froth, sweetening with two table-spoonsful of white powdered sugar. Beat the prune pulp gradually into this meringue, and turn quickly into a well buttered pudding dish. Bake in a steady oven for 35 minutes. Serve immediately with sweetened whipped cream.

## IMPERIAL DEGREE STAFF

# 100 Strong

## GONE TO INDIANAPOLIS

Encouraged by brilliant sunshine, blue skies and the cheers of sympathizing on-lookers lining the streets, the Imperial Degree Staff of Kandle lodge attended by an escort of Odd Fellows, marched from their hall on Court street to the special train in waiting at 11 o'clock Wednesday morning, to bear the I. O. O. F. to the Sovereign Grand Lodge encampment at Indianapolis, Ind.

The staff and accompanying Odd Fellows, made quite an imposing parade, all in tan traveling coats and caps, and wearing the badge of the order. At the front of the parade the two beautiful silk flags presented by R. B. Hays Post and Hon. A. R. Creamer, unfurled to the breeze, and marching at the head were the members of the degree organization, H. D. Chaffin, captain; W. L. Vincent, 1st lieutenant; Dr. C. V. Lanum, Frank Horstman, musicians; Fred Heckman, bugler; Jesse Hyer, electrician.

At the station the I. O. O. F. were given a great send off and pulled out amid the cheers of the friendly crowd.

Temple lodge has never before engaged in anything on such an ambitious scale as the present contest, in which 65 degree staffs will be competing for the Sovereign Grand prize, and every state in the Union will be represented at the encampment.

Four degree staffs are over from Germany purposely to see the work put on by the American degree staffs. They will not compete in the contest.

Tonight it is expected that 200,000 Odd Fellows will march in the electric light parade in Indianapolis.

The Degree Staff is composed of the following Odd Fellows:

H. D. Chaffin, captain; W. L. Vincent, 1st lieutenant; J. A. Edge, M. S. Elliott, P. E. Rothrock, A. J. Thompson, Wilson Bachert, Charles Stafford, Arthur Plyley, Wm. Fogle, Frank Horstman, musician; C. V. Lanum, musician; Dave Miller, Ralph Allen, Will Springer, Wm. DeWees, R. J. McLean, Clyde Larrimer, Fred Hickman, bugler; Jesse Hyer, electrician; Sherman Bishop, Jno. Allaman, Allen Boncutter, Allen Gault, Orie Hidy, Noah Carr, Blanchard Carr, Chas. Hard, Jasper Blackmore, Harry Springer, Jno. Maddux, O. L. Peart, Ed Lemon, Arthur Miller.

## Chocolate Cream Cake

One cup of sugar, butter size of an egg, one egg, one cup sour milk, two squares chocolate, pinch of salt, one and three-quarters cups flour, one teaspoon (level) soda. Cream butter and sugar. Add the egg. Then add the sour milk, which has been mixed with melted chocolate. (Melt over hot water). Last put in the flour with which the soda and salt have been sifted. Bake in two layers. Frosting: One cup of sour cream, one cup sugar one cup, or less, chopped hickory nuts. Boil cream and sugar ten minutes. Add nuts and stir until thick enough to spread. Put between layers and a thin coating on top. On top of this put the following chocolate frosting: One heaping teaspoon butter, rubbed into the heaping cup XXXX confectioners' sugar, one heaping tablespoon dry cocoa, one tablespoon warm coffee, one-half teaspoon vanilla. If this is not thick enough to spread add more coffee.

ple lodge and especially appropos at this time when the eyes of Fayette-county's citizens are centered on the Odd Fellows and their ambitious Imperial Degree staff, took place in Memorial hall Tuesday night.

It was the regular meeting night and the final putting on of the drill with which the Imperial Degree staff hopes to win at the Sovereign Grand lodge meeting in Indianapolis this week.

Comrade Jeff Lindsay, of the R. B. Hays Post made a short speech and presented a superb silk flag, finished with gold fringe, and beautifully mounted with a gold American eagle at the top of the staff, on behalf of the Past Post Commander George F. Robinson, followed with a stirring address, in which he enlarged upon the warm feeling existing between the I. O. O. F. and the G. A. R. and paid eulogistic tribute to the order, hoping that it would wrest victory from the Indianapolis contest.

Hon. A. R. Creamer then stepped forward and presented a very handsome I. O. O. F. silk flag, with gold cord and tassels and mounted on a staff, with well chosen words of commendation and encouragement.

The Degree Staff, halted so unexpectedly in their drill, stood for a moment in delighted surprise and then broke into a storm of applause, their cheers ringing out on the night air until passersby on the streets below paused in wonder.

Brother Anderson Edge responded, expressing the great appreciation of Temple Lodge and the Degree Staff.

The work of the staff as seen last night was thought to be the finest that the staff has ever done and will certainly come in for a share of the prizes.

Billie Stevens, who has the reputation in the Octa neighborhood of being an unprincipled bully, is in trouble again. This time Stevens is under arrest charged with assault and battery upon the person of ten-year-old Orie Johnson, son of J. B. Johnson, merchant of Octa, and the fellow will probably receive the limit for his assault.

Constable Oatmeal, armed with a warrant, went to Dayton Monday evening where Stevens was held, having been arrested in that city by the police, upon information furnished by the officials here, and brought him back Wednesday morning. His hearing will take place later.

According to the story of Octa citizens, Stevens, who belongs to a gang of booze fighters that infest the village of Octa and who are continually causing trouble, was in a vacant house in the village, in an intoxicated condition.

The Johnson lad was passing the house when the fellow is alleged to have seized him and beat him in a shocking manner, tearing part of his clothes from his body and also frightening the boy almost into hysterics. The boy is not a strong lad, and is troubled with rheumatism. As a result of the beating administered has been very ill since.

Seeking punishment for the man's crime, the father caused an affidavit to be issued for Steven's arrest, and this was issued from Mayor Allen's office, placed in Constable Oatmeal's hands, and when Oatmeal made a trip to Octa, his bird had flown, going over to the "Gem City."

The police were notified to arrest Stevens and hold him. This they did, and Stevens was brought back to this city to face the music.

Just a few weeks ago Pat Stevens, brother of Bill Stevens, is said to have chastised the Johnson lad, and he was arrested and fined \$3 for his act.

One of the Octa citizens during a conversation over the phone, said: "We have no law enforcement up here, and the way some of the toughs carry on is simply shocking. They just take the place and do anything and everything that is mean. There are some bad ones around here, and when they get drunk, which they frequently do, they are as bad as they can be, and openly defy all law."

### A GREAT ADVANTAGE TO WORKING MEN.

J. A. Maple, 125 S. 7th St., Steubenville, O., says:

"For years I suffered from weak kidneys and a severe bladder trouble. I learned of Foley Kidney Pills and their wonderful cures so I began taking them and sure enough I had as good results as any I heard about. My backache left me and to one of my business, expressman, that alone is a great advantage. My kidneys acted free and normal, and that saved me a lot of misery. It is now a pleasure to work where it used to be a misery. Foley Kidney Pills have cured me and have my highest praise." Blackmer & Tanquary.

## Lad Is Badly Injured; Fell Under Farm Wagon

John, the four-year-old son of John Hayman, living near Danville, seven miles north of Bloomingburg, was seriously injured Tuesday noon by falling from a farm wagon and both wheels passing over his body near the abdomen.

The lad was knocked from the wagon seat by a protruding limb of a tree. Dr. Smeltzer was called and rendered medical attention, finding that the little fellow, while very badly injured, will probably recover.

### A JOLLY TIME IN FRANKFORT.

The Warriors' Degree staff of Monocue Tribe No. 121, Improved Order of Red Men of this city, trailed to the hunting grounds of Frankfort, Ohio, last night and conferred the Warrior's Degree for Delaware Tribe No. 196.

The work was conferred in a most beautiful and impressive manner. The degree staff was under the management of Bro. A. G. Degroot as captain.

After the degree work several good talks from different brothers were very much enjoyed. After the quenching of the council fire the 24 boys from here along with a large number of the Frankfort boys lead a trail to the dining room where all were served with corn and venison and cream and cake. After all was over the Washington boys started on the long trail homeward, arriving in this city at a very late hour.

Monocue Tribe of this city expects to have the Frankfort Tribe to confer some degrees here in the near future.

Allow a pound of sugar to each pound of tomatoes and a half cup of water to each pound of fruit. Cover the tomatoes with boiling water, then skim. Make a sirup of the sugar and when boiling skim and add the tomatoes. Have ready a sliced lemon that has been cooked in boiling water and a little sliced ginger. Add to the tomatoes. Cook until the tomatoes are clear, remove, pack in jars cook the sirup until thick, pour over and seal.

### HOME REMEDIES.

For ivy poison I have found nothing superior to lard and carbolic acid, using about ten drops to each heaping teaspoonful of lard. For flux I give castor oil with three drops of turpentine and three of camphor, three times a day, and have never called in a doctor since using it. For children I give a tablespoonful scant measure, and for adults heaping full.

## IT IS A FACT.

The splendid new structure—the home of the local Y. M. C. A.—now approaching completion, on North Main street, cannot fail to call forcibly to the mind of every resident of Fayette county, that a big undertaking is now an accomplished fact.

The men who have had the movement in hand from the start have proceeded, step by step, with so little commotion and so little confusion that few people have realized just how rapidly and how thoroughly their work was being done.

When it is known, however, that of the \$40,000 subscribed by the residents of Washington and Fayette county, \$8,000 has already been collected and invested in real estate and \$12,000 additional has been collected and paid over on building estimates and that the next estimate on the building, which the committee is ready to meet, will carry the total invested in the building, at the time that estimate is met, to \$15,000 or a grand total of considerable over \$20,000—more than half of the subscriptions—without any special effort being required to gather in the money, some idea of the enormity of the undertaking, the success of the movement and the spirit which impelled the donors to the fund, may be had.

Fayette county's Y. M. C. A. Home will be a handsome monument of stone, brick and steel to the energy and ability of the men who subscribed to the fund and launched and piloted the movement.

Beyond that, however, it will be, above all, an enduring evidence of the fact that the spirit which has made the civilized world what it is today has a permanent abiding place among our people.

The splendid structure stands as indisputable evidence, that the great organization which has done so much of practical good in the world, is here with headquarters to look after the boys and young men of this community; that it will join hands with them in pleasure and in sorrow; that under its influence for good, the places of vice and sin will perish for want of young lives whereon to feed; that the battle has been won.

The importance of this movement to this community can not be over-estimated. Much has been said of the Y. M. C. A. organization and of its practical and effective work for good and it is not needful now to repeat it.

Suffice it to say that the organization is here with its home nearly completed, ready for actual work in the campaign which will be an unending one.

So quietly has the work gone on and so completely has the love and desire for better and higher things in humanity, mastered this community that few yet realize the blessing which has come among us.

When the last nail is driven and the last mechanic has left, then our good people will continue to realize for years to come just what a tremendous forward stride was taken when the big clock was hung out in front of the Business Men's Club on March 7th, 1910, with its fingers pointing ominously to \$40,000.

Then the question was, "Can we do it?"

Now we know that we have done it.

## Nations Will Not Unite For Any Purpose Not Prompted by Self Interest

By HUDSON MAXIM, Inventor

DISARMAMENT is a beautiful dream, but it does seem to me to be IM-POLITIC AND IMPRACTICABLE. The coming international tribunal will need all its guns to enforce its mandates.

THE NATIONS OF THE EARTH WILL NOT UNITE AND CAN NOT UNITE FOR ANY PURPOSE NOT PROMPTED BY INDIVIDUAL SELF INTEREST.

It would be impracticable for the carnivora and the herbivora to make an arbitration pact to settle their differences, for the one is constituted to prey upon the other, and its very existence depends upon the sacrifice of the other. Like the attitude of the carnivora to the herbivora is that of the big nation to the small and of the aggressive occidental to the peace loving oriental.

There are HALF A BILLION PAIRS OF EYES in China looking admiringly toward Japan. There are in China and over the vast neighboring areas UNCOUNTED MYRIADS needing but a leader and arms and training to hurl themselves upon western civilization and SMITE US HIP AND THIGH as their ancestors smote ours in years ago. These people are NOW AWAKENING. They are training. They are arming. The GREAT YELLOW STORM CLOUD is slowly rising along the whole eastern sky, and it is only a question of TIME when the storm will BURST.

## POETRY FOR TODAY

### "NOW LADIES OF THE JURY."

Women began service as jurors in Washington State.

No longer may the budding Choate  
In separation cases  
Make utterances with his throat  
That reddens hearers' faces.  
No more with batteries of laws  
Shall he proclaim his fury.  
He must be courteous because  
A woman's on the jury.

When once the giants of the bar  
When pleading in divorces  
Would venture just a bit too far  
With their linguistic forces.  
Now such behavior they abhor,  
And innuendoes shady  
They must refuse to utter, for  
One jouryman's a lady.

Opposing counsel, growing warm—  
Tragedians, not jesters—  
Would rant and roar and have and storm  
Like ninety-nine nor'westers.  
But now they do not chew the air  
Like actors in Old Drury,  
For they are gallantly aware  
A woman's on the jury.

"Permit me, sir," each says to each,  
With courtly genuflection,  
"Your pardon, sir, I must beseech  
For entering objection."  
The oldest barrister must feel  
A schoolboy immature he  
When he beholds, in his appeal,  
A woman on the jury.

## A NEW PARODY.

Mary had a little rat,  
And kept it underneath her hat,  
And everywhere that Mary went  
The rat on going was intent.  
One day she took the rat to school,  
But that was not against the rule.  
Other girls had rats there, too,  
And e'en the teacher had a few;  
But all these rats were merely sham,  
And so nobody cared very much.

## Grosscup Announces Retirement From Bench

Federal Judge Signs For Freedom of Private Life.

Chicago, Sept. 20.—Judge Peter S. Grosscup of the United States circuit court has announced his intention to tender his resignation to President Taft early in October.

In his announcement Judge Grosscup says: "The reason for my resigning at all is that I wish more freedom, not only as an individual but as a citizen. The world politically is trying to catch up with the world's radically changed economic conditions. The formative period is approaching. Next year's presidential election will, I believe, be the last one on the old lines. And the settlement for the future will come, not through the courts of law, but through the court of public opinion. I wish no office—except never again to hold office—but I wish greater freedom than the bench gives to do my part in this court of public opinion."

Probably the most notable case in which he acted was the opinion of the circuit court in setting aside the \$29,000,000 fine imposed by Judge Landis on the Standard Oil company, which decision was prepared and read by Judge Grosscup.

**EVERYBODY'S BIBLE QUESTION BOX**

YOUR BIBLE QUESTIONS WILL BE ANSWERED IN THESE COLUMNS, OR BY MAIL IF SENT TO THE EDITOR OF THIS JOURNAL.

Q.—When will the "Times of Refreshing come from the presence of the Lord, spoken by all the Prophets" as we read in Acts iii, 19-21?

Answer.—Your question is one of deep interest to all peoples, kindreds and nations. "Times of Refreshing" means times of blessing, and all sane persons desire the blessings of life, health, peace and happiness. The Apostle spoke these words ten days after the ascension of Jesus into heaven. In the same connection he said, "He (God) will send Jesus, \* \* \* whom the heaven must retain until the times of restitution of all things," which clearly shows that the "times of refreshing and of restitution" cannot come until the coming reign of Messiah, whose reign is for the very purpose of judging the world in righteousness (Acts xvii, 31) and for the "blessing of all the families of the earth," all those who are obedient to His righteous reign. (See Genesis xii, 1-4; I Corinthians xv, 25-28; Matthew xxv, 31-46). The time between the first and second advents of our Lord is a period in which the Church, the Bride of Christ, is being selected. When Christ comes for her (as He promised in John xiv, 1-3), then the Kingdom of Christ will be set up and the "Times of Refreshing" and blessing will begin, and then "The Spirit and the Bride will say come, and all who will may come and take of the water of life freely" (Revelation xxii, 17).

## Arrested On Big Ocean Liner

Opium King Was Returning From Prosperous Trip to Honolulu.

San Francisco, Sept. 20.—Norman B. Smith, a fugitive from Honolulu, and considered by Chief Wikie and secret service operatives "king of opium smugglers," was arrested on board the Matson liner Wilhelmina as the vessel entered quarantine station at Angel Island. Thirty-five hundred dollars in gold was found in Smith's effects. The money represents the prisoner's profits on his latest trip to the islands with a large assignment of the restricted drug, by secret service men.

## Intrepid Aviator Is Killed

Thousands Witness Rosebaum's Fall at County Fair.

DeWitt, Ind., Sept. 20.—At the Clinton county fair Louis Rosebaum, an aviator, after flying successfully for 20 minutes, was dashed to the earth, 600 feet below, to his death before a crowd of 5,000 persons. Something happened to his motor and the machine turned over. Rosebaum was unseated and, slowly at first, then faster, preceded the machine to his death on the ground. The sight was a terrible one for the spectators. Many turned their faces from the scene. Women in the crowd fainted. Every bone in the aviator's body was broken.

### Suspends Fire Chief.

Lorain, O., Sept. 20.—Mayor King suspended Fire Chief Ed C. Essex, pending an investigation by the civil service commission of charges that he attacked Captain J. J. O'Doherty in engine house No. 7.

### Fire Threatened Gidney.

Sidney, O., Sept. 20.—Fire of unknown origin destroyed the large brick livery stable belonging to M. M. McIntyre. Sixty tons of hay and other contents of the stable were burned. Adjoining and adjacent buildings were threatened for a time, but the fire was held to the livery stable. The horses were taken out with much difficulty.

### Hurricane Adds to Devastation.

Catania, Sept. 20.—A hurricane has added to the devastation in Sicily, particularly at Giarre. Acireale, which hitherto had not been touched, has now been attacked by the flow of lava. Eight peasants at Castiglione have been cut off by lava and their rescue is impossible. The main crater of Mount Etna shows signs of increasing violence.

### Flatly Refuses to Discard Extra Wives

(Continued From Page One.)

WOMAN or a man had done the killing or whether more than one had been implicated in it. They had heard that the white man was killed by native women who either had been cast off as wives by their husbands because of the missionary's teaching or who were afraid that they would be thus cast off.

## Stolypin Funeral Today

St. Petersburg, Sept. 20.—The body of M. Stolypin was buried at Kieff. The czar visited the hospital at Kieff, where M. Stolypin died, and afterwards attended mass for the repose of the dead statesman's soul. After the services he spoke a few words of comfort and encouragement to the widow of the late premier.

## RESTORE GRAY HAIR TO NATURAL COLOR

By Common Garden Sage, a Simple Remedy for Dandruff, Falling, Faded, Gray Hair.

The old idea of using sage for darkening the hair is again coming in vogue. Our grandmothers used to have dark, glossy hair at the age of seventy-five, while our mothers have white hair before they are fifty. Our grandmothers used to make a "sage tea" and apply it to their hair. The tea made their hair soft and glossy, and gradually restored the natural color.

One objection to using such a preparation was the trouble of making it, especially as it had to be made every two or three days, on account of souring quickly. This objection has been overcome, and by asking almost any first-class druggist for Wyeth's Sage and Sulphur Hair Remedy the public can get a superior preparation of sage, with the admixture of sulphur, another valuable remedy for hair and scalp troubles. Dolly use of this preparation will not only quickly restore the color of the hair, but will also stop the hair from falling out and make it grow.

Get a bottle from your druggist today. Use it and see for yourself how quickly dandruff goes and gray hairs vanish.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special agent, Brown's Drug Store.

## REAPER GATHERS FAYETTE COUPLE

BRAVED HARDSHIPS  
ON PLAINS OF IOWA

WHO EARLY TURNED EYES WESTWARD

We are indebted to Mrs. J. R. Conner, of near Jeffersonville, for a copy of the Alden (Iowa) Times, which contains the following account of the life and death of Frances Pearson Popejoy, a pioneer of this county, and a member of the honored Pearson family. Her husband, the late John I. Popejoy, was at one time well known in this region, having been engaged in business with his father, Edward Popejoy, for many years in Jeffersonville. He was a brother of the late Mrs. Alvina Conner, also a Fayette county pioneer. Fortune smiled upon Mr. and Mrs. Popejoy in their western home and they accumulated largely of this world's treasures. Mr. Popejoy at the time of his death being rated as a very successful business man, owning large tracts of land, many cattle and occupying the presidency of two strong banks.

Concerning the death of the widow the Alden Times says:

Frances Sophia Pearson, youngest child of Moses and Mary Pearson, was born at Hopkinton, New Hampshire, December 17, 1828, and died at her home in Popejoy, Iowa, September 4, 1911, being, at the time of her death, nearly 83 years of age. When 13 years old she moved with her parents to Fayette County, Ohio, traveling in a covered wagon.

On October 24, 1849 she was married at Jeffersonville, Ohio, to John I. Popejoy whose death occurred December 24, 1896. A remarkable coincidence was that Mr. and Mrs. Popejoy each were the last of their respective families to pass beyond.

Mrs. Popejoy came to Franklin county, Iowa in April, 1855, traveling by boat, down the Ohio and up the Mississippi to Muscatine, where she was met by her father-in-law, Edward Popejoy, and with three small children drove over the cold prairies to their cabin home, which is still known as the Old Popejoy homestead. Her husband followed across country, hauling their household goods.

In 1898, Mrs. Popejoy moved to the town of Popejoy, Iowa, which is located on the north part of the old farm.

She is survived by seven children: Mrs. Mary E. Forbes, of Dows; Mrs. J. H. Gilger, of Alden; Miss Flora A. Popejoy, of Popejoy; Mrs. F. A. Thayer, of Iowa Falls; Edward P. Popejoy, of Genterville, New Mexico; Mrs. H. J. Eastman, of Alden, and J. Horace Popejoy, of Iowa City.

Mrs. Popejoy was a member of the Universalist Parish, of Iowa Falls and was an unusually intelligent and capable woman. She was a student of history, mythology and current events and her mind was always a veritable storehouse of knowledge along these and many other lines. She was, withal, a real "home body" with the true sense of hospitality, and her home, whether the little cabin or the spacious dwelling which was erected later, was always a comfortable stopping place for friends and strangers alike.

Funeral services were held at the home, Wednesday forenoon, Sept. 6th, conducted by the Rebeccas of which order she had been a member for many years. Interment was made at the Alden cemetery, the service at the grave being in charge of Rev. Neal Spicer, pastor of the Universalist church at Webster City.

## THE DOCTOR'S QUESTION.

Much Sickness Due to Bowel Disorders.

A doctor's first question when consulted by a patient is, "Are your bowels regular?" He knows that ninety-eight per cent. of illness is attended with inactive bowels and torpid liver, and that this condition must be removed gently and thoroughly before health can be restored.

Rexall Orderlies are a positive, pleasant and safe remedy for constipation and bowel disorders in general. We are so certain of their great curative value that we promise to return the purchaser's money in every case when they fail to produce entire satisfaction.

Rexall Orderlies are eaten like candy, they act quietly, and have a soothing, strengthening, healing influence on the entire intestinal tract. They do not purge, gripe, cause nausea, flatulence, excessive looseness, diarrhoea or other annoying effects. They are especially good for children, weak persons or old folks. Three sizes, 50c., 25c. and 10c. Sold only at our store.—The Rexall Store, Blackmer and Tanquary.

PRINCE KROPOTKIN  
FORCED FROM COUNTRY

BERNE—(Spl.)—Much mortification is felt in Switzerland because so distinguished a man as Prince Kropotkin has been driven from the country by the narrow-mindedness of the authorities of the canton Ticino, where the Prince recently went for his health.

Many years ago, when the now aged and infirm Russian was editing "La Revolt" at Geneva, he was expelled from Switzerland on account of the revolutionary tendencies of the paper. Opinion concerning him has greatly changed now, however, and taking it for granted that there would be no further objection to his presence, he went to Locarno, in the canton Ticino, on his doctor's advice.

Discovering that he was there, the canton authorities notified the government, whereupon the Prince left the country to avoid a second expulsion. In government circles it is stated that he would readily have been granted permission to remain, had he asked for it. Modern anarchists consider the Prince socialistic rather than anarchistic in his views.

## A Mistake.

"These fellow here," said the manager of the asylum, as he conducted his visitor through the building "were disappointed in love."

"Poor creatures!" exclaimed the sympathetic visitor.

"And these," said the manager, opening the door of another ward, "were not disappointed. They married."

The visitor shuddered and shook his head, and they walked along the corridor in a sad and understanding silence. As they went by an open door the visitor caught sight of a middle-aged woman sewing.

"Heavens," he cried, "what suffering is depicted on that poor lady's face! Tell me, who is she?"

"She?" roared the manager. "Why, that's my private sitting room, and she's my wife!"

CREAM PRUNE PIE.—Wash thoroughly one pound of prunes, cover with fresh cold water and set aside over night. Put in a double boiler, adding more water if necessary to cover them, and simmer slowly until very tender. Remove the stones and rub the prunes through a colander, adding sufficient juice to moisten them. Measure, and to each cupful of pulp allow one cupful of cream, the yolk of four well beaten eggs, and one-third of a cupful of sugar. Line a pie plate with a good crust, fill with the mixture, and bake in a moderate oven. Spread with a meringue, made with the whites of two eggs and two tablespoonfuls of powdered sugar whipped together until stiff, dust well with sugar and return to the oven long enough to cover.

Big Gas Main Breaks  
And Fool Applies Match

A half dozen Ohio towns and cities were short of natural gas Saturday and Sunday when a break occurred in the big 15 inch gas main near London, in Madison county, and some person unwittingly applied a match to the escaping gas, which caused a great blaze to consume the escaping gas for some time until the gas could be turned off and the pipe repaired.

The man who touched the match to the gas is supposed to have been consumed in the fire that followed, as his gloves were found near the scene. The blaze occupied a space fifty feet in diameter and arose in the air fully sixty feet.

Saturday night the blaze was observed for a half score or more miles in all directions. The loss is said to have reached near the \$3,000 mark. No trace of bones could be found on the spot, as the intense heat licked everything up before it.

## River Gives Up Dead.

Zanesville, O., Sept. 20.—The body of Dr. R. B. Meek, who was drowned Saturday when he went over the Muskingum river dam in a canoe, was found in the undertow of the Licking river about 50 feet from where it went down. A pedestrian on the "Y" bridge saw the body as it pitched on top of a wave. The police were notified and it was recovered with grappling hooks.

The Entire Vitagraph Stock Co. Present the Side-Splitting Comedy  
"BIRDS OF A FEATHER."

This is a very delightful picture. The man pictured is just the kind that would get himself tangled up in this situation. He begins by refusing his pretty wife the money for a new dress, and then buys an expensive one at a department store and has it sent home. His wife sells it to a second-hand dealer and another girl buys it. What makes this picture unusually acceptable is the acting of the leading man and the presence of the other Vitagraph players, as well as the fact that there are no weak spots in the picture at all. It is strong all the way through.

New Coiffure  
Easily Arranged

In dressing the hair it is now parted  
in the middle or at the side, given a  
good wave, and then drawn down low  
over the ears, completely covering  
them, and the ends arranged in a  
close knot at the back. Over this  
the calotte is pinned, and then are ar-  
ranged the swirls or tresses which lie  
loosely about the knot. When the  
dressing is complete it seems as if the  
hair were just lightly and naturally in  
a soft succession of swirls. The smart-  
est women in Paris are now affecting  
this style. Girls from 15 to 20 years of  
age wear the hair cut off in front—  
that is, bobbed like that of a child.  
The bobbed hair falls well over the  
ears, is waved, and the ends turned  
under. The back hair is then knotted  
at the back and the new swirling  
calotte is adjusted.

With the hair dressed low in this  
fashion, a number of styles in false  
fronts are employed. Some of these  
are so arranged that the natural hair  
passes over them, while others are  
pinned on in front, completely cov-  
ering the top of the head. Nearly  
everybody is wearing a small fringed  
bang, artificial in nine cases out of  
ten, because women do not like to  
cut off the hair in front, as fashions  
change so quickly.

Much use is still made of puffs and  
small curls. The Mms. Recamier  
style of hair dressing is considerably  
affected by stage people and young  
women who dress in extreme styles,  
but the great vogue is for the parted  
hair drawn down over the ears. Long  
braids are not so much used as they  
were formerly, the present styles  
tending toward arrangements which  
show the natural shape of the head.

Some new hair ornaments are be-  
ing shown. Notable among these is  
a tucking comb with three rings or  
extensions at the top, through which  
the braid is passed to form coils. A  
special pattern of this description has  
hooks to which the ends of the braid  
may be attached. With this comb,  
which is patented, the dressing may  
be made before adjusting to the hair.

Another, simpler comb, also patent-  
ed, has two knobs or horns at the  
side, about which the hair can be  
twisted when dressing. Both styles of  
these combs are having a considerable  
movement.

The fact that Parisian manufactur-  
ers are now producing new styles in  
combs, and featuring them more ex-  
tensively than formerly, is a fairly  
strong indication of an immediate  
future revival of combs and other hair  
ornaments. This phase the American  
retailer will find it profitable to watch.

GENEROUS.

A COSTLY DEATH NOTICE.  
Seth Woodbury was a tight-fisted,  
hard-hearted old farmer. His brother  
William, dying, the neighbors said,  
from lack of proper treatment, Seth  
hitched up and drove into town to  
have a notice about his death inserted  
in the weekly newspaper.

"There ain't no charges, be there?"  
he asked anxiously.  
"Oh, yes, indeed," answered the  
editor. "Our price is \$2 an inch."  
"Cracky!" muttered the old man,  
"an' Bill 6 foot 2."

It Can't Be Denied.  
Mrs. Myles—Did you ever see a  
man go through things like that cus-  
toms inspector?  
Mrs. Styles—Oh, yes, I've seen my  
husband go through a bureau drawer  
looking for a shirt. —Yonkers States-

Ambition Crushed

It is said that the height of the am-  
bitions of most of the boys of the  
Kansas state reformatory, next to be-  
ing paroled, is to play in the band.

The band is always limited to twenty-  
five members, and Professor Herb,  
the director, stated the other day that  
there are at least fifty applicants on  
file from inmates who want to tool  
horns.

But there was one lad at the Insti-  
tution recently who evidently thought  
more of blowing a horn than being  
released. He got a notice that he had  
been paroled.

"What did they do that for?" he  
protested to Superintendent Richard.  
"Here I've been waiting for a year to  
play in the band, and just as soon as  
I get in they go and parole me and I  
have to leave."

WELL! WELL!

"Does your husband talk much about  
his mother's cooking?"  
"No. He talks more about mine."

Thanhouser Picture Feature in 2 Reels

Romeo and Juliet

This picture has received columns of praise from the Bill-  
board, New York Telegraph, Moving Picture World and all the  
big city papers. Thanhouser says it is his greatest production  
to date. Our Exchange failed to notify us in advance, as is cus-  
tomary on features, and for that reason we have done no previ-  
ous advertising. Many theatres have charged 10c admission  
for this feature production, and it is well worth it; yet we will  
show it at our customary price of 5c. Don't miss it whatever  
you do. One night only, and that is tonight.

Do It Now

By KENNETT HARRIS.

IF I HAVE got a bill to pay  
And find my purse somewhat flat,  
There's never any rush to-day;  
To-morrow is the time for that.  
But if there's something owing me,  
Delay is what I'll not allow;  
I think it's likely you'll agree  
It's better far to do it now.

Though I'm disposed to feed the friend  
Who drops in for a little chat,  
There is no hurry, I contend  
To-morrow is the time for that.

But if I'm asked to take a drink  
When perspiration dews my brow,  
Procrastination's wrong, I think—  
It's better far to do it now.

To work, when work's a thing I hate;  
To kick about my neighbor's brat  
When he, my neighbor's, twice my  
weight—  
To-morrow is the time for that.  
When tasks distasteful must be done  
I never do them, anyhow;  
But anything that looks like fun—  
It's always best to do it now.

THAT CAMPING TRIP.  
"Have good weather on your  
camping trip?"  
"You bet!"  
"There were enough sunny days  
to dry out all the bed clothes be-  
fore the next rain came."

A Professional Man.  
"You say he's a professional man?"  
"Yes."  
"But I thought he followed automo-  
bile racing?"  
"He does. He's a doctor."

Woman vs. the Cactus.  
"The clinging type of girls is dis-  
appearing." "Yes; modern woman,  
with her numerous hatpins, is more  
like a cactus than a vine."—Washing-  
ton Herald.

"Had a puncture, my friend?" asked  
the passer, with an air of interest.  
The chauffeur looked up, and swal-  
lowed his feelings with a huge gulp.  
"No, sir," he replied, "I'm just  
changing the air in the tires. The  
other kid's worn out, you know!"

## How do You Read

A MAN WHO takes pleasure in checking up what others do tells me this: "Of the people who read in the subway, street cars and elevated trains (and nearly everybody does,) the men read newspapers, the women and girls read books. And, as a rule," he went on, "they read good books. In the last week I have seen women and girls with such books as 'Sir Gibbie,' 'Ivanhoe,' several recent novels, two books by Kipling, three by Dickens and a lot of others I never heard of; so it seems to me that, while some good books are read by the travelling public, more of the modern, average order are favorites. But they may be good books for all that."

"It is curious," he continued, "what a great deal of reading one can do going to and coming from work. Though I think more read in the morning, when the mind is fresh, than at night when mind and body are tired."

"If a girl spends twenty minutes in a street car in the morning, she can read easily three or four thousand words, or twelve to twenty pages of two hundred and fifty words each, barring accidents of course. If she has to stand or give her seat to a weary gentleman who does not like to see a lady seated in a car, or if somebody keeps stepping on her feet, the amount she can read is reduced. But an average of even twelve pages a day is nearly four thousand, four hundred pages a year, or about fifteen volumes of three hundred pages each."

"This number of books would do anybody good who would read in the morning, and this it over in the evening on the way home."

"There ought to be a printed slip in every book, telling us why and how to read. It should go something like this:

"A bag of oats in one barn will not feed a horse in another barn. The oats must be put before the horse, and if he wants them (which he generally does) he must bend his head and take them into his mouth, lifting it now and then that he may have time to chew them into the condition that make the first stage of food. Time and digestive organs do the rest."

"This operation is not to be done once, but often, that the horse may live."

"So a book in one place is of no use to a man in another place. They must be brought together. And when they are together he must bend his head and take it in, by mental mouthfuls, raising his head now and then to chew what he takes in, so as to put it in the shape of the first stage of food."

"Then he must wait for the mental digestion to turn the food into strength."

"And this operation of the man, like that of the horse, is not to be done once, but often. Then the man grows mentally strong as the horse grows physically strong."

"One of the worst phrases that a reader can put forth, is that one which says, 'take it in at a glance.' No one can do this with a book that is worth while. One might just as well try to force oats down a horse's throat with a blower."

"If a man chewed over his reading as many people we see chew gum, books would soon begin to yield all their flavor."

## EQUAL DIVISION OF LABOR.

There were points of resemblance between Mrs. Hammond and the lives of the field; she had married a young man who had a good salary, but she herself had never earned a penny in her life, nor had she been blessed with well-to-do parents.

"We have a joint account in the National Fountain Bank," she announced to one of her friends, when she had been married a few months. "It is such fun to pay bills by check."

"What do you mean by a joint account?" asked the incredulous friend. "Do you put in equal sums?"

"Oh, I don't put in any," Mrs. Hammond said. "Will puts it in, and I draw it out."—Youth's Companion

## DYE IT.

There is many a garment tucked away in closet or garret that could be made as good as new by coloring. Modern package dyes are so easy to use and give such perfect results that it is often expensive economy not to use them.

Dyeing requires but little time, requires no skill at all, and gives faded fabrics a new lease of life.

## FRUIT WAFFLES.

For one day the maternal piece de resistance could be waffles made in the usual way, but with dates chopped fine added to the batter. These are especially wholesome as well as tasty.

When broiled chicken appears as a course in summer time fried tomatoes are considered an addition in many families. Slice fine large tomatoes, dip in flour, season with salt and pepper and fry in butter until brown. Group around the fowl.

Mushrooms, too, make a dainty bite, and may tempt when nothing else will. Peel some and simmer in just a little water, to which you have added a teaspoonful of butter, with salt and pepper, if liked. When tender add a quarter of a pint of sweet cream, and as soon as this has heated remove from the fire, stirring in the well-beaten yolks of two eggs. Return the saucepan to the stove, and stirring steadily, let it thicken. It is then ready to serve.

Many a tableful, to whom one would not lightly suggest codfish balls, may be beguiled with fresh fish croquettes, for which this is the formula: Take a cup of cold cooked fish, seasoning with pepper and salt. Make a thick white sauce, using half a cupful of this cream. Stir in the fish and heat well. Add two stiffly beaten eggs. Have the fat kettle boiling, and take up a spoonful of the batter, covering it with flour while on the spoon to form a very soft ball. It will be too soft to handle. Drop from the spoon into the fat, and when brown and puffy remove. Keep the balls in the oven, after draining on paper, until all are ready. Serve with sliced lemon.

## Green Gages

Weigh the fruit and scald in boiling water to make the skins come off easily. Let them stand in a large bowl an hour after they are peeled so that the juice may be extracted. Drain this off; lay the plums in the kettle alternately with layers of sugar, allowing pound for pound. Pour the juice over the top and heat slowly to the boiling point. Take the plums out at this point very carefully with a perforated skimmer, draining them well through it, and spread upon broad dishes in the sun. Boil the sirup until thick and clear, skimming it well. Return the plums to this and boil ten minutes. Spread out again until cool and firm, keeping the sirup hot on the fire. Fill the jars three-fourths full of the fruit, pour on the scalding sirup, cover to keep in the heat, and when cold seal.

When you feel discouraged, nervous, tired, worried or despondent it is a sure sign you need MOTT'S NERVE-PILLS. They renew the normal vigor and make life worth living. Be sure and ask for Mott's Nerve-Pills. Price \$1.00 by drugists. WILLIAMS MFG. CO., Props., Cleveland, Ohio. Sold at Brown's Drug Store.

## First Grand Prize

\$600 Schaff Bros. Player Piano

This beautiful Player Piano will be given to the person having the largest number of votes in the Register-Herald's Great Voting Contest, and was bought of J. A. Smalley, who has the instrument on exhibition at his storeroom on West Court street, next door to the T. C. DeWees Photo Gallery. A cordial invitation is extended to all to call and examine this beautiful prize.

This player piano carries with it an unlimited warranty and is the most simply constructed player on the market, one lever acting for the tempo, start, stop and rewind, making it possible for a child to operate it and play any style of music, from ragtime to the most classical.

The tone of this instrument, its volume of sound and artistic workmanship have earned for it the distinction of being one of the finest player pianos ever brought into Fayette county. Call at Smalley's store on West Court street and examine this prize.

## 2nd Grand Prize

\$265 Link & Son Piano

This piano, also made by the Schaff Bros., of Chicago, Ill., and Huntington, Ind., has no equal on the market for the price. The people making this piano have been located in Chicago since the year 1863 since which time their financial rating has been unsurpassed by any of their competitors. They were the first firm to make upright pianos in Chicago after the great fire of 1872, and a steady improvement has marked the quality of their product ever since.

This piano was purchased from J. A. Smalley and is on exhibition at the storeroom next to the DeWees photograph gallery. The many excellent features of this instrument, combining a double veneered mahogany case, light, perfectly balanced and sympathetic action and soft mellow tone make it one that anyone who is a lover of music would be proud to own.

## DISTRICT FIRST PRIZE

## \$125 Diamond Ring

This ring was purchased at the store of C. A. Gossard & Co., who guarantee it to be a pure and flawless stone. If C. A. Gossard & Co. added not one word of assurance, this beautiful little gem would speak for itself.

The perfect color, correct cut and proportion give it the scintillating brilliancy that comes only in the perfect stone. It is a gem no better than which adorns the hand of royalty—it is a prize that any young lady may well strive for.

To the energetic woman who wins it, this beautiful gem will be as a legacy in the bank. Its value is eternal and can never grow less. The person who wins this prize is not required to take the ring which we have selected, but CAN HAVE THE CHOICE OF ALL \$125 DIAMONDS in the store of C. A. Gossard & Co.

## DISTRICT SECOND PRIZE

## \$75.00 Diamond Ring

This stone, purchased of W. H. Hettesheimer, Jeweler, is not quite as large as the diamond offered as the District First Prize, but it is a good sized gem, perfect in color and absolutely flawless. It has a Tiffany setting, and will make a splendid prize for some worthy young lady.

W. H. Hettesheimer guarantees this ring to be exactly as it is here advertised, and the person who wins it can have their CHOICE OF \$75 DIAMONDS IN HETTESHEIMER'S store.

Young ladies, here is a chance to secure that coveted diamond. Perhaps you may never have the opportunity of getting another. Some person is going to be the proud possessor of this valuable prize. Why not you? It will not cost you a cent.
